

Soergel Home & Garden Spring Availability

Please note this availability is a working document. It is subject to change, and these items are not guaranteed to be in stock.

*Due to staffing and logistical constraints during the busy month of May, we are only able to customize orders so much. If you want to ensure specific varieties, the best course of action would be to come in during business hours (M-F 10:00 - 5:00). Please understand that curbside orders might include substitutions for varieties (ex. If you order a slicing tomato, you might get any variety of slicing tomato).

Veggie Starter Plants

FROST WARNING! The average frost free date in our area is mid-May. If planting vegetables other than Cole crops be sure to watch nighttime temperatures. If they dip into the 40's or 30's bring your plants inside if possible or protect them with coverage. (Cloth blankets, old sheets, overturned bins, garbage cans, pots, etc. DO NOT use plastic sheeting)

Cole Crops

| | | |
|---|--|--|
| Broccoli | | |
| Cauliflower | | |
| Green Cabbage | | |
| Kale - "Improved Dwarf Siberian" - Temporarily out of stock | | |
| Kale "Dinosaur" - Temporarily out of stock | | |
| Lettuce - Black Seeded Simpson | | |
| Lettuce - Romaine "Green Towers" | | |
| Lettuce - Salad Bowl Red - Temporarily out of stock | | |
| Red Cabbage | | |

Tomatoes

| | | | | |
|------------|----------------|---------------|--|--|
| Better Boy | Slicing tomato | Indeterminate | Beefsteak type, big and meaty | |
| Brandywine | Slicing tomato | Indeterminate | Classic favorite for flavor and all purposes | |

| | | | | |
|-----------------|----------------|--|--|--|
| Carolina Gold | Slicing tomato | Determinate | Yellow fruit, flavorful, low acid | |
| Celebrity | Slicing tomato | Determinate | Uniform size and shape, the pretty-boys of tomatoes | |
| Cherokee Purple | Slicing tomato | Indeterminate | heirloom, purplish hue, very flavorful | |
| Early Girl | Slicing tomato | Determinate | Early fruiting if you want the first tomatoes in your neighborhood | |
| Husky Red | Slicing tomato | Indeterminate, but with controlled vine growth | Great for containers | |
| Juliet | Grape tomato | Indeterminate | “Mini-Roma,” Crack resistant | |
| Mountain Merit | Slicing tomato | Determinate | Blight resistant, good for all purposes | |
| San Marzano | Plum Tomato | Indeterminate | Palm-sized, meaty, good for sauces and canning | |
| Sugar Plum | Grape tomato | Indeterminate | Winner of many flavor contests - sweet and good for snacking | |
| Sungold | Cherry tomato | Indeterminate | Yellow-orange fruit, sweet and tangy, great for snacking right off the plant | |
| Tumbling Tom | Cherry tomato | Determinate | Good all purpose cherry tomato, great for containers | |

Peppers

| | | | |
|-----------------------------|----------------------------------|---|--|
| Banana | Sweet Chili Pepper | Mild, sweet and tangy pepper. Great for pickling, stuffing, or eating raw | |
| Baron | Bell Pepper | High-yielding, sturdy bell pepper good for cooking and stuffing | |
| California Wonder | Bell Pepper Green to Red | The absolute standard of bell peppers for decades | |
| Cayenne | Hot Chili Pepper | Mild heat, often used for smokey flavor and a bit of spice | |
| Cubanelle | Sweet Pepper | Sweet, but with a mild bit of spice. Popular in Italian and Spanish cuisine | |
| Flavorburst | Bell Pepper Lime green to yellow | Crisp, sweet, & juicy. Perfect for raw snacking | |
| Ghost - not quite ready yet | Hot Chili Pepper | Just stupid hot. Good for hot sauces, but seriously, be careful with this one! Do not underestimate it's heat | |
| Habanero | Hot Chili Pepper | Very hot. Good for hot sauce and spicing up dishes, but perhaps with a bit of caution! | |

| | | | |
|-------------------|-----------------------------|--|--|
| Hungarian Hot Wax | Hot Pepper | Looks like a banana pepper, but hotter than you might think (comparable to a jalapeño). Popular for pickling, frying, and stuffing | |
| Jalapeño | Hot Chili Pepper | Spicy, flavorful, good for cooking, pickling, spicing up salsas, etc. | |
| Karma | Bell Pepper Green to Red | Another standard - thick walls, great for stuffing and all bell pepper uses | |

Zucchini's, Cucumbers, and Egg plant

*we are actively working on filling out this availability, and we have just recently transplanted these veggies. More information on varieties to come, but we do have them available
